Thinking about the government's economic policies, which of the following best reflects your view?

The government should stick to its current strategy of reducing the deficit, even if this means growth remains slow	36	36	75	10	50	64	14	31	43	30	38	36	34	38	41	30	38	45	36	27	27
The government should change its strategy to concentrate on growth, even if this means the deficit stays longer or gets worse	38	37	14	65	30	19	61	39	38	36	30	36	38	39	36	38	38	30	36	44	42

Some people have suggested that if the government were to spend more money and do less to reduce the deficit Britain could face a similar debt crisis to that in Italy and Greece. Which of the following best reflects your view?

Britain has a healthier economy and lower debt than Italy or Greece - we could afford to borrow more to encourage growth	27	11	47	21	14	42	32	31	22	26	26	29	25	26	27	29	22	27	30	29
It is vital that Britain reduces our deficit or there is a serious risk that we could go the same way as Italy or Greece	47	78	22	56	72	27	36	50	45	46	45	45	52	51	42	48	53	49	38	45

The government originally put £1.4 billion into Northern Rock to stop it going bust. Virgin Money will pay between £747 million and £1 billion to buy Northern Rock, meaning the government will lose at least £400 million on the deal. Thinking about this, which of the following best reflects your view?

- The government was always going to lose money rescuing Northern Rock and it is good they have got £747 million back for it
- The government is losing too much money on this deal, and should have kept hold of Northern Rock for longer in the hope of getting more

The government is seeking changes to public sector pensions that will require public sector workers to work for longer and contribute more to their pensions. The government say that with people living longer the changes are necessary to make public sector pensions affordable in the long term. The trade Unions say that changes have already been made that make current pensions sustainable. Do you think it is right or wrong for the government to ask public sector workers to contribute more of their salary towards their pension?
