The Scottish government has said it will hold a referendum on the future constitutional position of Scotland.

There are still a number of decisions to make regarding the referendum, such as exactly when it is held, what is included on the ballot paper and who should be eligible to vote in it. Who do you think should make these decision, the Scottish government at Holyrood or the UK government at Westminster?

Some have argued that the referendum should offer people the straight choice over whether Scotland should remain part of the UK or negotiate independence. Others however claim that a third option should be included on the ballot paper, offering people the chance to vote for an extension of powers for the Scottish parliament. If the referendum had two ballot papers, the first on further devolution and the second on independence for Scotland, the following pages will show how these may look. If there was a referendum tomorrow, how would you vote on these ballot papers? If you would not vote, or are unsure, please leave the questions blank and click next.

I AGREE that there should be a further significant devolution of all financial matters to the Scottish Parliament while Defence and Foreign policy remain reserved UK issues.
