## 7. Effectiveness of efforts to stop spill

You may have heard or read about efforts to stop the oil spill, such as capturing oil at the spill and pumping it up to a ship for capture, putting a cap over the spill, or blocking the spill by dropping concrete and other material on it. Generally speaking, how well would you say these efforts have worked when it comes to stopping the oil spill? (Asked of respondents who are aware of oil spill in Gulf of Mexico)
