13. Support for super committee

As part of the debt ceiling increase legislation, Congress created a 12-person committee equally divided between members of the House and the Senate and between Republicans and Democrats. They are to report their recommendations for reducing the deficit on November 23rd. If they do not, or if their recommendations are not enacted, there will automatically be large across-the-board budget cuts, including for defense, Social Security and Medicare. Do you approve or disapprove the creation of this "super committee"?
